

Dear friend,

Welcome to the BLUE HEAVEN **Benalmádena development.**

Here at the GRUPO LIBRA, we're very proud of the 192 unique and customisable properties that we're going to build in a high quality residential complex with excellent facilities and breathing sea views.

The GRUPO LIBRA has extensive experience in the property sector, spanning over 20 years and with more than 4000 properties sold. We currently have developments with 1400 properties and this year 470 will be handed over to their new owners.

Our main premise has been "**the luxury of space at the best price**", and this is the principle that **BLUE HEAVEN** answers to: vast spaces, unbeatable orientation, the best views of Benalmádena and the sea and all at unique prices.

That's why we decided to develop **BLUE HEAVEN**. This is a remarkable project on the Costa del Sol, with 1, 2, 3 and 4 bedroom properties that can be "customised", making them unique in this sector. Their quality is guaranteed thanks to our exclusive agreement with the project's partner, **PORCELANOSA**, which will provide the properties with the greatest luxury and most elegant style.

The GRUPO LIBRA team and the chain of marketing partners are at your complete disposition so that buying and living in your property is a **unique experience**.

Kind regards,

Miguel Palmero Martín
CEO
